

Grant Associated Research Faculty Position  
**Canadian Centre for Applied Research in Cancer Control (ARCC)**  
**Cancer Control Research**  
Vancouver, British Columbia, Canada

Applications are invited from candidates with outstanding credentials and an excellent track record of research productivity to join our team of world-class scientists at the BC Cancer Agency (BCCA) for the Canadian Centre for Applied Research in Cancer Control (ARCC). ARCC is an innovative pan-Canadian research centre whose mission is to improve cancer control and the delivery of care through interdisciplinary leadership in health economics, services, policy, and ethics research, education and knowledge translation. Applicants at the Scientist (equivalent to a university Assistant Professor) level are invited to apply.

The ideal candidate will have a PhD in health economics or health services research as well as at least 3 years experience in research. Recognition of the core principles of collegiality, teamwork, accountability and integrity is expected. The role will allow a minimum of 80% of time to be devoted to the conduct of research and training with the balance of time to be devoted to administrative and/or service functions. A successful candidate would be expected to obtain a cross appointment at an appropriate rank at a BC University. Preference will be given to researchers who provide the best fit with ARCC's core mandate, who have significant expertise in the application of economic methods to genomics and personalized medicine, and who have a strong background in economic evaluation and the statistical analysis of complex data sets.

Key attributes of the successful applicant will include the ability to initiate and sustain a successful nationally recognized research program as indicated by significant contributions to multiple high impact publications, acquisition of peer-reviewed funding from national or international agencies as a principle investigator and as a co-investigator, invited presentations, reviews for journal articles and grants, and strong references by recognized arms length authorities in his or her research discipline.

For further details about this position you may contact:

Dr. Stuart Peacock  
Co- Director, ARCC  
Distinguished Scientist, Cancer Control Research,  
BC Cancer Agency (BCCA)

CVs will be reviewed beginning of May 8<sup>th</sup>, 2015 and it will remain open until the position is filled.

Please see <http://www.bccrc.ca/dept/cc> for more information.

The BCCA is committed to reducing the incidence of cancer, reducing the mortality from cancer, and improving the quality of life of those living with cancer. It provides a comprehensive cancer control program for the people of British Columbia by working with community partners to deliver a range of cancer services, including prevention, early detection, diagnosis and treatment, research, education, supportive care, rehabilitation and palliative care. It operates four regional cancer centres in the Fraser Valley, Kelowna, Vancouver and Vancouver Island, with a fifth centre that opened in Abbotsford in summer 2008 and a sixth centre scheduled to open in Prince George in 2012.

The BCCA is an agency of the Provincial Health Services Authority (PHSA) which plans, manages and evaluates specialty and province-wide health care services across BC. PHSA embodies values that reflect a commitment to excellence.

These include:

- Patients first
- Best value
- Results matter
- Excellence through knowledge
- Open to possibilities.

The BCCA and PHSA are committed to the continuing leadership of world class research in the full spectrum of cancer control activities. These include basic and translational research to understand the causes of cancer, to eliminate the impact of cancer in patients diagnosed with the disease and to improve the lives of those living with or cured of cancer. The BCCA has entered a new era of integrated research activity that will build on the foundation of the past to reach new heights of progress through extended collaborations and partnerships both within and external to the organization.

The PHSA is committed to employment equity and hires on the basis of merit. We encourage applications from all qualified individuals, including Aboriginal peoples, persons with disabilities and members of visible minorities.
