

Lecturer/Senior Lecturer in health economics/health financing

School of Population Health, University of Auckland, New Zealand

NZ\$76,535 - \$121.876 per annum (Job ID 17627)

This position is based within the Health Systems section of the School of Population Health (www.fmhs.auckland.ac.nz/en/soph.html) which is one of five schools in the Faculty of Medical and Health Sciences at the University of Auckland. The main purpose of the position is to contribute to the teaching of and research in health economics, health systems financing and organisation, and health services research.

We are looking for a person who holds a PhD in economics or another related discipline relevant to health care financing and health services research in addition to the following:

- Experience in teaching topics relating to financing and organisation of health services
- A publication track record in research relevant to health economics and / or health services research in relevant leading journals
- A good understanding of the application of economic concepts to health systems
- Experience in qualitative and / or quantitative research methods
- Strong interpersonal skills
- Experience and ability in teaching and mentoring students
- Ability to supervise postgraduate students
- Ability to develop curricula
- Capacity to work positively in a multi-disciplinary environment with a commitment to collegiality

Informal enquiries about the post can be addressed to Prof Toni Ashton (email: toni.ashton@auckland.ac.nz) but applications must be submitted via the university website (Job ID 17627):
